

# **ECO 3** DOE Required Certified Erosion & Sediment Control Lead Training

## Stormwater Permit Compliance

Training hosted by City of Auburn

**April 6-7 9:00 AM**

Re-certifications Day One Only

City Council Chambers  
25 West Main Street  
Auburn, WA 98001-4998

Construction sites 1 acre or larger site, are required to have a DOE Stormwater Permit and an erosion control supervisor on site. Meet permit requirements with ECO 3's Certified Erosion and Sediment Control Lead Training (CESCL) Program.

This is a two day classroom and field trip course which focuses on erosion control for contractors and municipal inspection. Each attendee will be issued a numbered certificate and a wallet-sized certification card required for on-site Certified Erosion & Sediment Control Leads.

### TOPICS TO BE DISCUSSED:

- Introduction, Calculations & the Erosion Control Planning Process
- Source Control, Conveyance & Treatment BMPs
- Infiltration and Vegetative Filtration methods
- Spill Prevention Planning
- Stormwater Monitoring  
Instruction for monitoring includes Discharge Monitoring Reporting (DMR) and use of transparency tube and portable Turbidimeter, and pH testing using test strips and pH probe.
- Administrative Record Keeping
- Field Trip, Practical Application Exercise & Erosion Inspection Review
- Construction Stormwater Pollution Prevention Planning  
Clean Water Act & NPDES Overview, Stormwater Permitting Requirements, Phase II Municipal Requirements
